A true family home, the Pensacola has something for everyone. The comforts of an open floorplan with the convenience and separation provided by a main level master suite make this an ideal plan.

An open two-story family room, spacious chefs kitchen and formal dining room accent the perfect main level.

The master suite is exceptional; two huge walk-in closets and a fully appointed master bath.

Three large bedrooms, two baths and a massive game room grace the upper level.

Floorplans and elevation are an artist's concept only and are subject to change without prior notice. See builder for actual detailed landscape and plans.
